the story of detroit is told through the eyes accomplishments and often anguish of the people who lived there over the past three hundred years the interesting and informative text of detroit across three centuries is heavily supported by art artifacts and photos that not only give the reader a glimpse of the citys past but a look at its present and its future

thaddeus sobieski coulincourt lowe 1823 1913 was called by carl sandburg the most shot at man of the civil war a flamboyant showman dedicated scientist and starry eyed dreamer lowe soon after the outbreak of the civil war went to the federal government with a view to convincing the authorities in the use of balloons for observation purposes he eventually was made chief of the aeronautic department and rendered valuable service to the army of the potomac during the war hovering over the battlefield observing the action from his hot air balloon lowe is considered by many to be the founder of the us air force besides aeronautics lowe also made contributions in the fields of meteorology cartography military science aerial photography metallurgy and railroading this historical novel is the story of lowe s struggle trials and tribulations and sheer perseverance in promoting the interest of science with a fast paced plot crisp dialogue and strongly developed characters stephen poleskie has aptly captured lowe s life and achievements in this highly readable book

the black country s place in aviation history is indisputable ranging from the balloon that took off from wolverhampton gas works in 1862 setting a world altitude record to the powered flight controls for the european fighter aircraft destined to serve well into the next century in a wide ranging and fascinating account the achievements of numerous black country firms are brought to life including sunbeam the premier aero engine supplier at the beginning of the first world war and Boulton Paul the makers of one of the battle of Britain fighters the defiant as well as describing the earliest flights in the area Cody s kites in wolverhampton in 1902 and Spencer s airship at Amblecote in 1905 the author brings to life the flying circuses which brought aviation to the region many people may remember the airfields at Walsall Wolverhampton and Perton and the black country s own airline Don Everall aviation but it is less well known that the

world s largest aeroplane was once constructed in oldbury and that heavy bombers were built in smethwick illustrated with many previously unpublished photographs the history of black country aviation is a readable and authoritative account of the subject and contains much to surprise and inform black countryman and aviation enthusiast alike book jacket title summary field provided by blackwell north america inc all rights reserved

preface in the past few years there has been much discussion both in the united states and abroad of the ability of lighter than air vehicles to meet future transportation needs many of the proposed uses and missions seem promising however lighter than air is not without its problems although modern technology may be able to overcome these problems the ultimate issue could be the economic feasibility of lighter than air
